

Viapol

National reference in the development of complete and effective solution for every construction

THE MAJOR MANUFACTURER OF CHEMICALS focused on civil construction in Latin America.

Founded in 1990, Viapol is one of the largest chemical industries for civil construction in Brazil.

Viapol has a portfolio of more than 900 products for protection, maintain and work valuation, besides supplying demands of the transformation industry.

There are solutions for Buildings, Infrastructure, Basic Sanitation, Industrial Work, Concrete and Mortar, General Construction, Waterproofing, Industrial Raw Material, Woods, Industrial and Commercial Floors, Industrial Paints and Fire Protection.

FRANK C. SULLIVAN

168PHILOSOPHY

*"Hire the best people you can find.
Create an atmosphere that will keep
them. Then, let them do their jobs"*

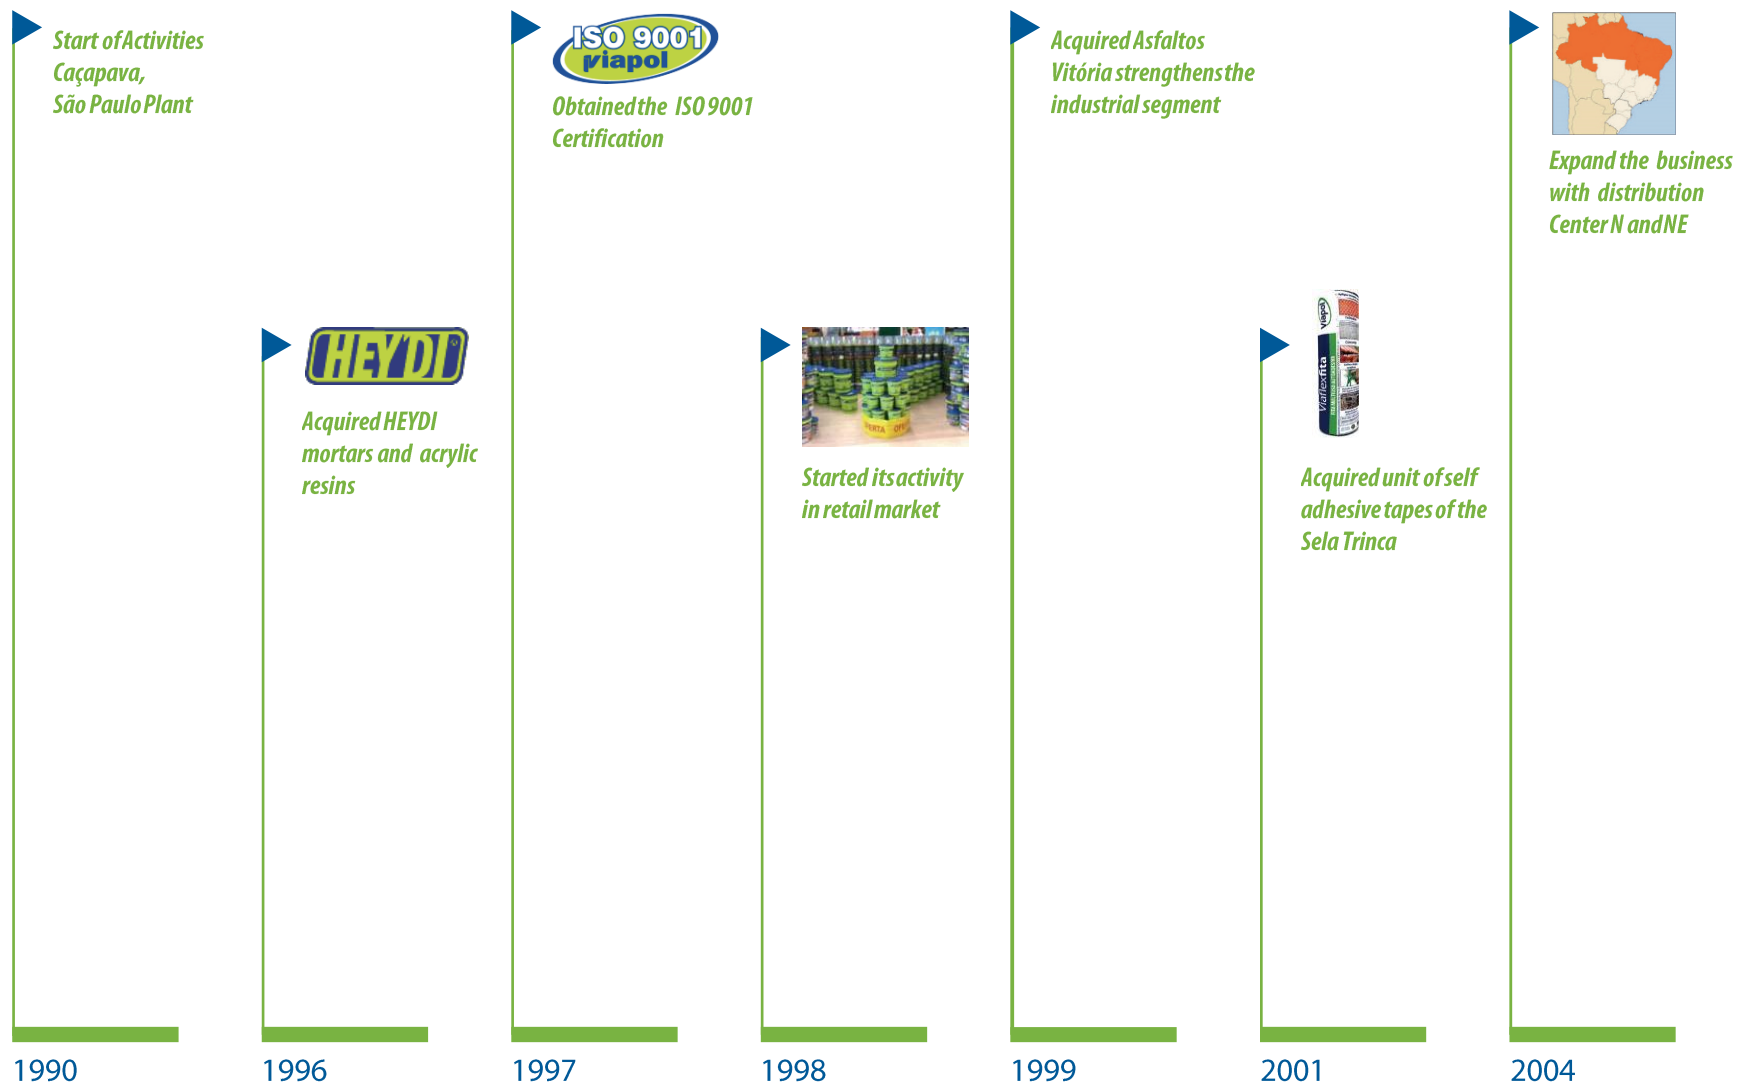

Fundador/Founder

MORE THAN US\$ 5 BILLIONS

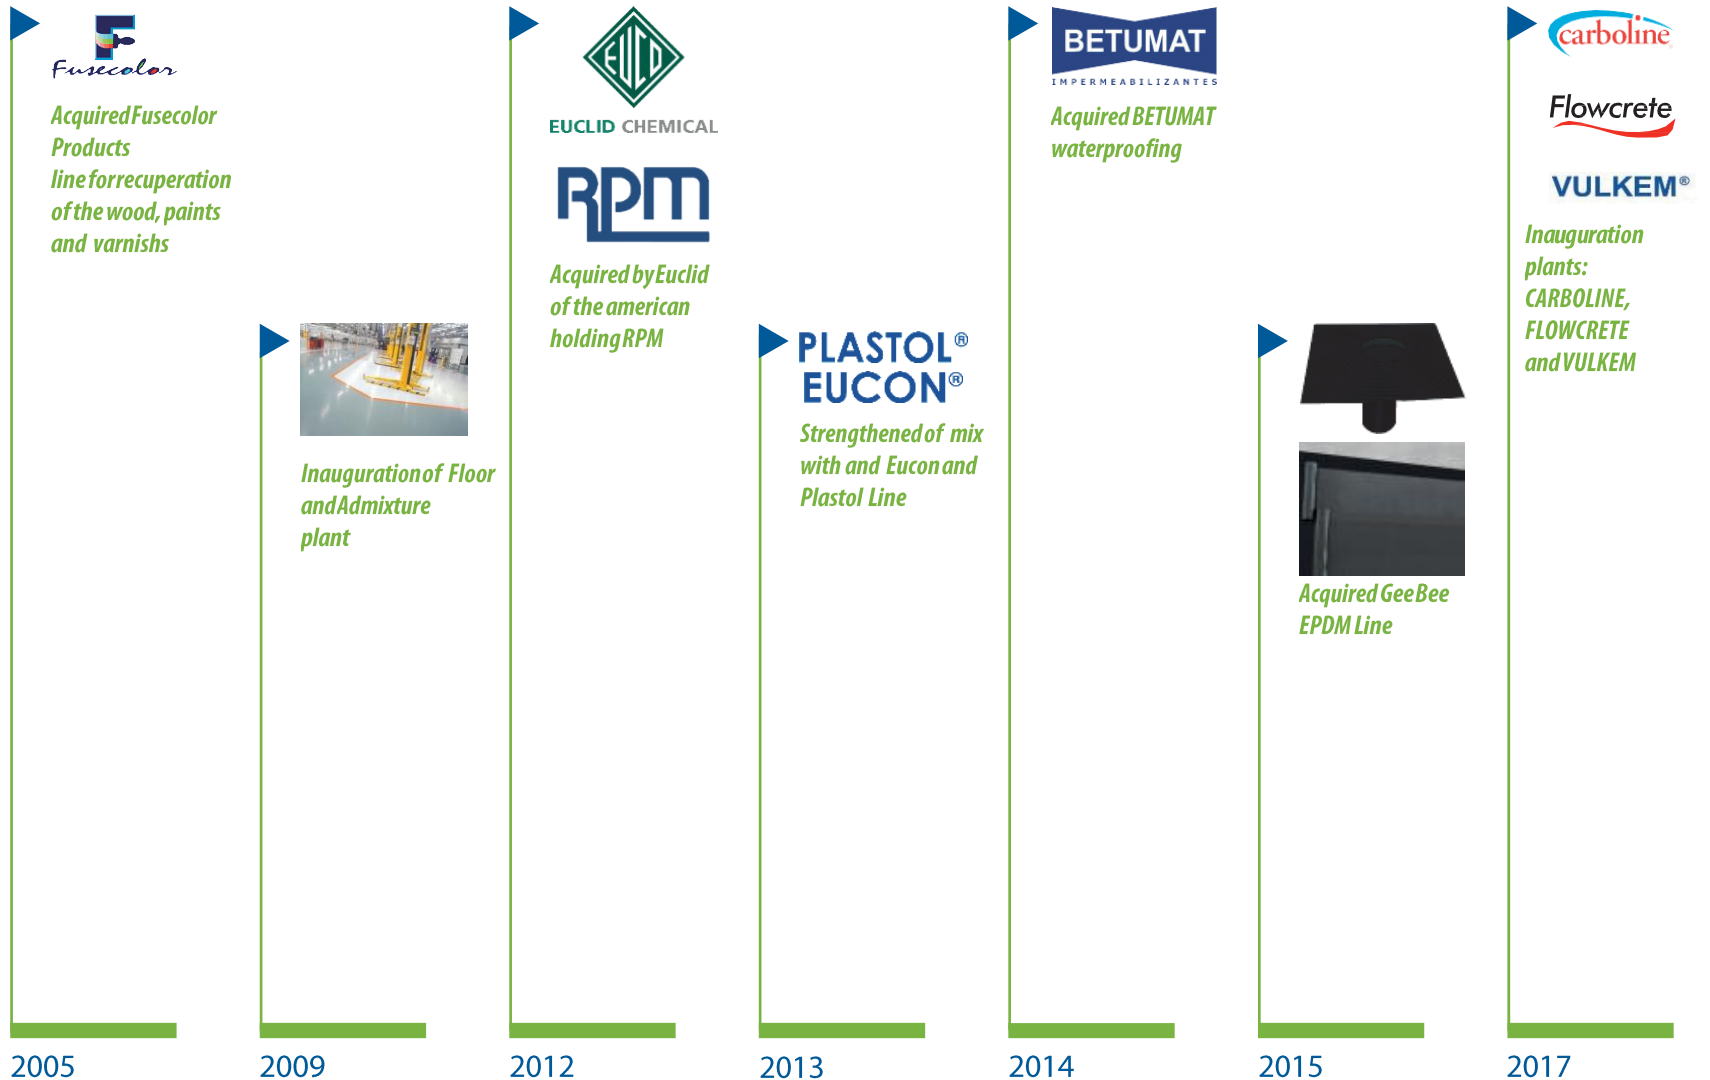

- Entrepreneurial Operating Philosophy
- Competitive Advantage of Leading Brands
- Balance Between Consumer and Industrial Businesses
- Growth Strategy Balanced Between Internal Investment and Acquisitions

Time Line Viapol

Time Line Viapol

Investments in our plants

VIAPOL strongly invests in INNOVATION, QUALITY, TECHNOLOGY

- Own manufacture of polymers and final product - **VULKEM**
- **FLOWCRETE** Coovering
- Industrial paints **CARBOLINE**

Flowcrete

carboline

Investments in our plants

Viapol strongly invests in SAFETY AND ENVIRONMENT

*The highlights are the Fire fighting facilities, warehouse for flammable products and heat generation by using biomass instead of fossil fuel derived from petroleum.
This project has decreased the greenhouse gas emissions GHG in a average of 85%.*

The fire fighting system is one of the most modern and safe in Latin America, in accordance with the US National Fire Protection Agency (NFPA).
